About

Designer and illustrator with 17+ years of experience and 300+ delivered projects — from startups to international companies.

I work where systems thinking meets visual expression: I design interfaces, build brand visuals and draw illustrations. Good design, to me, is not only beautiful but clear and practical.

Experience 2011–2026

LuckyGroup
RU
Dec 2024 — May 2026

Websites and landing pages, Tilda development. Identity, branding, logos. Print, presentations, social media. Exhibition stands and full design support for conferences. Illustration, retouching, AI tools.

MoySklad
RU
Mar 2024 — Dec 2024

Product portal work, user research, landing pages. New design concept, social media, print, merch, exhibition stands, presentations.

EFKO
RU
Jan 2023 — Mar 2024

Project work for one of Russia’s largest food companies: design concept for a subscription magazine for professional chefs and menus for several restaurants; all illustrations and prepress.

Ants Games
UAE
Mar 2022 — Dec 2022

Game interfaces, characters, backgrounds and UI elements. Social media and ad creatives.

EmiDAO
UAE
2021 — 2022

Websites and landing pages. Concepts and illustrations for an NFT project, stickers, social media.

Rip Technologies
USA
2020 — 2021

Concepts and illustrations for posters and greeting cards, prepress.

TutMe
RU
2014 — 2020

Corporate websites, e-commerce, landing pages, mobile apps, prototyping. Illustration, retouching, packaging, prints, infographics, presentations, print. Led a team of five designers for 2 years.

Bloomex
CA
2011 — 2014

E-commerce and landing pages, retouching, packaging, infographics, presentations, print. On-site in a Canadian company, English-speaking team.

Skills

01 Design from UI to print

UI/UX, websites, branding, illustration, print. 200+ design concepts, hundreds of logos.

02 Design education

Engineering degree in design (TRTU, now SFedU).

03 6+ years in an IT studio

Close collaboration with developers, from idea to launch.

04 International experience

3+ years in an English-speaking Canadian team, long-term remote work with clients abroad.

05 Leadership and mentoring

Led a team of five designers for 2 years.

06 Ownership and deadlines

Extensive freelance experience; I plan my workload and deliver.

07 Vibe coding

Websites and interactive tools built with AI.

08 AI and automation

AI assistants, workflow automation, image and video generation.
